## First Password Assignment Report

### Passwords that are numbers

(Note, students might not have password protected the files. You only need to list passwords that are cracked with numbers less than 1000000)

Filename	Program Used to Encrypt File	Password Used
What	Microsoft Office xp/2003	999888
drPepper	-	-
3	ZIP	84562
Comics_3	PDF Encrypt	434591
Honyak_3	-	-
Carryme_3.txt	-	-
Zoom_3	EasyCrypto Encrypted File	9001
StudyGuide_3	-	-
Dog_3	PDF Encrypt	33533
Studyguide_3	-	-
Fuzzynapkins_3	-	-
Cat_fail-14144_3	CryptaPix Dictionary	57488
Watch_3	Microsoft Office 97/2000	2101
Club_3	-	-
Password_Protecting_Files_encrypt.docx_3	Advance File Lock	999998
Haha3	PDF Encrypt	354765
SUU_3	Password Pal	12345
Flag_of_the_Soviet_Union_3	OpenOffice	321987

Note any unusual behaviors or files that do not seem to be able to be cracked. Give a reason as to why this may be

## Passwords that are lowercase words

(Note, students might not have password protected the files. You only need to list passwords that are cracked with lowercase English words)

Filename	Program Used to Encrypt File	Password Used
Dog_1	ZIP 7	zebra
469x265_1	PC_Encrypt	none
Js_1	7 Zip	ribbon
Top Secret	Microsoft Office 2007	cattle
crackThis_1	EasyCrypto	agelast
Coolwater_1	Omziff	hello
Lunar_1	PDF Encrypt	moon
Excellentcolors1	winZip 9	No password Found
Users_1	Microsoft Access 2010	handcrafted
Fuzzynapkins_1	Zip	pickle
Comics_1	7 Zip	Orchestra
Pepsi	Microsoft Office 2007	Interrobang
Zoom_1	Zip	dancing
1	Whisper 32	z5^mm^sl
Yotengo_1	-	-
Dog_1	PDF Encrypt	Sinclair
Engineering_1	Microsoft Office 2010	Replace
Reyhstag_1	PDF Encrypt	Union

Note any unusual behaviors or files that do not seem to be able to be cracked. Give a reason as to why this may be.

Well if the unusual behavior or file is not in the database of cracks then you won't crack them. The yotengo\_1 is one of those I think. Or they just did a long password.
