List any unusual behavior you encountered during this assignment

I have fo

In order to prevent students from just typing in the password for their file, I would like a screen shot of PRTK showing that the password was recovered for each of the files listed above. You may include as many screen shots as you need. Note: you can take a screen shot of the active window by pressing ATL + Print Screen.

Filename	Attack Type	Status	Result
Ome_5	ABI Coder Dictionary Attack	Running	
Grille_Cipher_5	Microsoft Office 97/2000 Password Attack	Finished	the [HEX=007400680065]
